

Terma in brief

Operating in the aerospace, defense, and security sector, Terma supports customers and partners all over the world. With more than 1,300 committed employees, we develop and manufacture mission-critical products and solutions that meet our customers' needs and requirements.

Terma was established in 1949 and is headquartered at Lystrup, Denmark, with Danish facilities at Grenaa and in Copenhagen. International subsidiaries and facilities are based in the U.S. (Washington, D.C.; Warner Robins and Atlanta, GA; Fort Worth, TX; and Norfolk, VA), the Netherlands (Leiden and Woensdrecht), Germany (Darmstadt), UK (Harwell Oxford), Belgium (Brussels), UAE, India, and Singapore.

Terma collaborates with national defense forces, public authorities, and international organizations around the world. Terma is owned by the Thomas B. Thrige Foundation, Copenhagen, Denmark.

Terma covers four business segments:

- **Aeronautics:** aircraft self-protection, 3D-Audio, and Active Noise reduction solutions for all types of military aircraft and high-technology aerostructures and electronics manufacturing services.
- **Space:** electronics, software, and services for satellites, space control centers, and for test and validation tasks related to development of new satellites and spacecraft
- **Surveillance & Mission Systems:** radar systems for vessel traffic, coastal and airport surveillance, radars for naval vessels and for wind turbine interference mitigation and Obstruction Light Control. Activities also cover command, control, and communications solutions for naval vessels and air defense systems, self-protection systems for naval vessels as well as systems for security surveillance of critical infrastructures.
- **Terma Support & Services:** maintenance, support, and update of Terma and third-party products and solutions.
