## About Steen Lynenskjold

Steen Lynenskjold has been employed by Terma since 1989. As a member of the executive management of Terma, he has responsibility for all business areas and regions. The responsibilities include strategic choice of market and product segments, geographical presence, and partnerships.

Prior to his current role, Steen has had several assignments within Terma – latest as Senior Vice President, Defense & Security, which covered the global supply of airborne and naval self-protection systems, SCANTER radar systems, and tactical command and control systems for mission-critical defense and security applications.

Steen Lynenskjold has had a leading role in making Terma a more global company. Terma A/S is headquartered at Aarhus Denmark and maintains Danish facilities in Copenhagen and Grenaa. Internationally, Terma has subsidiaries and operations in The Netherlands, Germany, United States, Singapore, United Arab Emirates, India and Indonesia.

In 1999, Steen relocated as project manager for 18 months to Seattle, U.S., to support the Boeing Joint Strike Fighter (JSF) aircraft competition within the area of autonomic logistics. In the period 1990-1996, Steen worked in Darmstadt, Germany, to develop command and control systems for satellites used by the European Space Agency.

Steen holds an MSc (EE) degree from the Technical University of Denmark in 1987. In addition, he graduated as executive MBA from the Technical University of Denmark in 2002.

Steen is chairman of the Board of Directors of the Alexandra Institute, which is one of the seven Danish government-approved Research and Technology Organizations, with a mission to add value by making IT research available to industry in order to shape a digital future together. He is a member of the board of Terma Inc (US), board member in Naval Team Denmark and chairman for the advisory board at Security DTU.

Steen works out of the corporate headquarter in Lystrup.
